

# Total Design, Drawing & Fitout Service

From our modern factory at Coopers Plains, we work with clients to create solutions to their commercial kitchen design needs. Whether it's a straight forward job, or something no one has ever done before, you can count on Lambert to do it right the first time.

Commercial kitchen design is precise business. Errors that most people can't even see can cause you to fail the Council approval process, costing you time and money. Our 20 years of experience and uncompromising attention to detail allows us to get it right the first time. When you need commercial kitchen work done, give us a call, and find out why our customers keep coming back.
